Brainstormed Ideas

List all possible ideas that you might want to develop, make sure they're feasible!

Website Resources

List websites that will provide you with the CONTENT of your site. What information will you need to communicate via your website?

Website Categories

List all categories (tabs/buttons) that you will need to include on your site. Ex: Home, About, etc.

Copyright Free Images

Do a search for all the images that you might need to use. Provide links to them, paste them or indicate if you are going to use your own. This will allow you to know if there's enough information out there for you to build a site around:
